SUMMARY

I have a strong passion for web development and a knack for solving complex problems. I approach every project with a fresh and innovative mindset, emphasizing collaboration and effective communication to ensure alignment with project goals. My attention to detail and adaptability allow me to navigate challenges efficiently, while my creative thinking drives me to deliver high-quality solutions that address specific challenges. My goal is to leverage my technical expertise and interpersonal skills to make a meaningful impact and provide exceptional services.

PROJECTS

Housemaid Connect

- Developed Housemaid Connect, a MERN stack (MongoDB, Express.js, React.js, Node.js) platform for hiring maids on a permanent basis.
- Designed role-based views for streamlined user experiences.
- Integrated secure login and location-based search for efficient hiring.
- Built a responsive, intuitive interface and optimized backend for seamless operation.

HandmadeHaven - Artisan Marketplace Web Application:

- Developed a full-stack marketplace platform connecting rural women artisans from India with customers.
- Implemented user management, allowing users to sign up, log in, and manage their profiles.
- Built features such as product listings, categories, cart, reviews, and order management for a smooth shopping experience.
- Integrated secure payment gateways to facilitate safe online transactions.

TECH SKILLS

Languages: C, Java, SQL, Python

Web Development Skills: HTML, CSS, JavaScript, MERN Stack (MongoDB, Express.js, React.js, Node.js)

Application: Eclipse, Visual Studio, Git, MySQL.

RPA Automation: UiPath

Training and Certifications

Robotic Process Automation — Certificate

September 2024

- Developed expertise in RPA using UiPath and completed projects in web automation, PDF automation, and Excel automation.
- Gained proficiency in data scraping, data entry automation, RE framework, and data manipulation.
